CC: as told by patient & family

HPI:

Pt returned from Russia 2 months ago. There he got married to a woman who was trying to recruit him to the army. She claims that she got an abortion & then he divorced her and separated.

4 months ago while in Russia he started being suspicious of his roommate who was anxious all the time (Delusional mood).

He was not sleeping well for 1 month prior to coming to Egypt.

In Egypt after arriving by 2 weeks, he realized someone switched his phone (delusion of persecution) he was suspicious

of ppl's shares & started acting out of that (Relevance)

He punched a mirror that caused the tear in his rt hand

ligaments.

His uncle from mother side admitted him to a ps

for 1 month. He was discharged on Psychodol 3g & Depakine 500mg

He is currently not sleeping. He hasn't slept since yesterday.

He remains suspicious of others.

He reduced the dose of his medications on his own.

He believes what he is going through is normal.
