Pt raised with both parents until age of 5. Mother had 2 children from previous marriage. At age 5 started separation process w/ multiple courts & court orders against mother. She and her mother relocated to Alex. Mother was arrested one for a couple of weeks (due to court orders from divorce process). Mother told her her father is dead. Mother remarried then divorced after 2 years. Pt discovered her father is alive at age 16. Ran away from home & lived w/ him. She had then ~~relationship~~ a relations with a man 5 yrs older. Her father beat her several times & was neglectful. Mother didn't talk to her for 2 years after running away. She tried multiple drugs from a friend from 'alex'. She was intoxicated and had her 1st sexual intercourse & woke up in the middle of it at age 16-17. She had multiple partners after & abused several drugs & EtOH. At age 20 she started to stop these drugs & parties. Tried college but failed.
